PRR

NEA JOURNAL

VOLUME XXXVII JANUARY—DECEMBER

1948

The JOURNAL serves the entire membership of the National Education Association. It has the largest circulation of any professional journal in the world. As the organ of the National Education Association its policy is determined by the resolutions and activities of the Association itself. It aims to give an overview of education. It emphasizes pioneer undertakings. It seeks to encourage among educators a broader interest in the larger problems of education and life.

Persons binding their copies of the JOURNAL into an annual volume will use this sheet for a title page. The 1948 volume includes nine issues, one for each month except June, July, and August.

Executive officers of the National Education Association—Mabel Studebaker, president; Willard E. Givens, executive secretary; Gertrude E. McComb, treasurer; A. C. Flora, chairman, trustees. The JOURNAL is the official organ of the Association—Joy Elmer Morgan, editor; H. A. Allan, business manager; Lyle W. Ashby, Mildred Sandison Fenner, Ruth Coyner Little, and Agnes Samuelson, assistant editors; Erle Prior, art editor; Margaret Lane, advertising manager; W. L. Christian, circulation manager; Walter A. Graves, production manager.

National Education Association of the United States

1201 SIXTEENTH STREET NORTHWEST, WASHINGTON 6, D. C.

Goals of the Victory Action Program

TO BE ACHIEVED BY OR BEFORE 1951

1

Active, democratic local education associations in every community, including an FTA Chapter in every college which prepares teachers, affiliated with the state and national associations.

2

A strong and effective state education association in every state.

3

A larger and more aggressive national education association.

4

Unified dues—local, state, and national—collected by the local.

5

A membership enrolment of at least 90% in local, state, and national professional organizations.

6

Unified committees—the chairmen of local and state committees serving as advisory members of the corresponding national committees.

7

A professionally prepared and competent teacher in every classroom.

8

A professionally prepared and competent principal at the head of every school.

9

A professionally prepared and competent administrator at the head of each school system.

10

A strong, adequately staffed state department of education in each state and a more adequate federal education agency.

11

A professional salary for all members of the profession, adjusted to the increased cost of living.

12

Professional security for teachers and administrators guaranteed by effective tenure legislation.

13

Retirement income for old age and disability.

14

Cumulative sabbatical and sick leave.

15

Reasonable class size and equitable distribution of the teaching load.

16

Informed lay support of public education at local, state, and national levels.

17

Units of school administration large enough to provide for efficient operation with special attention to the needs of rural areas and stronger state and local boards of education.

18

Adequate educational opportunity for every child irrespective of race, creed, color, or residence.

19

The equalization and expansion of educational opportunity including needed state and national financing.

20

A safe, healthful, and wholesome community environment for every child.

21

An effective United Nations Educational, Scientific and Cultural Organization and a strong World Organization of the Teaching Profession.

The Victory Action Program, adopted enthusiastically by the Representative Assembly of the National Education Association in 1946, calls upon every teacher to participate in the solution of the problems of our profession. The burdens which this program places upon us are not easy, but they are not beyond our strength. We cannot escape the solemn obligation to do our best.
